Thank You.

Ms. G. Mathias
Principal

Namaste!

Greetings on behalf of India's International Movement to Unite Nations (I.I.M.U.N.), Over the last 13 years, I.I.M.U.N has not just taken the concept of glocal citizenship from 19 schools to 100,000+ across the country but also via experiential learning programs ensured that students from across the globe are sensitised to India. Apart from annual programs in 220 cities and 35 countries, we have also been responsible for organizing I.I.M.U.N at marquee locations around the world be it the Dubai Expo or a conference in the UN Headquarters, New York itself. And now we are excited to present to you our biggest prestige endeavour yet.

On January 26, 1930, India declared its quest for complete independence, marking the historic moment of Poorna Swaraj. Yet, over the years, western influence has shaped India's trajectory and at the organisation we have always believed that whilst there may be an Oxford style of debate, one must be proud of our Purva Paksha style of discourse and many such other facets that we need to remind ourselves about. A significant shift is the need of the hour!

On that note, we are thrilled, honoured and humbled to announce that I.I.M.U.N. will be embarking on another first that will take place in the United Kingdom from 24th to 30th of January, 2024 with 75 students from across India.

Some of the highlights/USP's of this conference include:

1. The Conference Venue: With an inauguration ceremony at the British Parliament and two days of MUN Conferencing at the Indian High Commission/Government approved center, students will get an opportunity to not only role-play diplomats and world leaders but also get an opportunity to visit and first-hand experience the venues where actual diplomats are seated and resolutions passed.
2. University Fair: A visit and guided tour at one of top University of London (from the likes of LSE, Oxford University etc)
3. Educational Excursions: Learning opportunities where participants will be exploring the best of U.K. from iconic landmarks like Buckingham Palace, the Tower of London, and the British Museum to the charming streets of Edinburgh and the natural beauty of the Lake District.
4. Speaker Line-up: Having hosted Heads of Nations, Nobel Laureates, Hollywood and Cinema icons amongst 30,000+ luminaries, the International Flagship will be graced by eminent International Personalities and Industry Leaders that will create a profound impact on students.
5. Potpourri of cultures- with students, academics and speakers from across the country participating this is an eclectic cohort of cultures that will come together to create a better more effective world governance structure.

Please find attached the organisation profile and so also a detailed brochure for I.I.M.U.N. United Kingdom. Kindly note due to the paucity of seats, please inform us of your response by the weekend. In case of any queries please feel free to get in touch with us at +919833997752.

We look forward to welcoming you as we create history.

VI. MEDIA IMPRESSIONS

VII. OTHER PROJECTS

The vision when I started the organisation in 2011 was to spread the concept of one world- to build an egalitarian society by spreading the idea of India through sensitizing tomorrow's leaders, today. MUN, I believed was a tool to decrease fissiparous tendencies and bring about actionable change. Howbeit, it has incontrovertibly become a tool to further the credentials of a school, an excuse for an official soirée or for other nefarious purposes, in short a mirror image of the United Nations and various world governments.

I.I.M.U.N has pioneered the concept in 220 cities and 35 countries, with about 98% of the cities not having a conference before we entered, and thus I feel responsible in a small way for what MUN has come to become. Therefore, we now embark on the journey of having every last school and student understand what MUN and in this case a Movement to Unite Nations actually stands for. A tool which will help students become glocal citizens appreciating both their countries culture and that of the world at large. A tool which will help them not just engage in fruitless colloquy but also bring about that Brobdingnagian change in their own infinitesimal manner. More so, a tool which will get them to understand how not to become just another United Nations.

The 13th year will focus on explaining students why India is the land that can Unite Nations- and why it is an idea and not a nation. The idea as it was in 2011 is to replace a highly anglicized elitist school of thought with the learnings of Gandhi, Tagore and the Vedic times. What is different is that it will now not just in our annual events- but through our network of 7500 schools and as them acting as torchbearers, we will continue to strive to build leaders who may not be Indian by birth but at least by thought. It is ironically time for India's International Movement to Unite Nations!

Indian at heart. International in our Mindset.
